➤ Introduction

I am Dhani Patel, currently pursuing B.Tech in Information Technology at CHARUSAT with a strong interest in Cloud Computing and Distributed Systems. Passionate about designing scalable, secure, and reliable cloud solutions, I aim to contribute to building efficient architectures and real-world cloud applications. Alongside academics, I enjoy working on side projects, exploring modern cloud services, and enhancing my skills through hands-on learning and open-source contributions.

□ Education

- Bachelor of Technology in Information Technology
Charotar University of Science and Technology (CHARUSAT) • Changa, Gujarat
• Expected 2027
- Higher Secondary Education (Science Stream) GSEB Board • Surat,
Gujarat • 2023

□ Experience

1. Web Developer Intern
TechnoHacks EduTech(Jan 2025-Feb 2025)
 - Made a Contact Us Form
 - QUIZE websiteIt Strengthened foundational understanding of Website Development.
2. MERN Stack Intern
HandsTogether Tech(June 2025 – July 2025)

- Developed and deployed CRUD application using React, JSON Server, and REST APIs.
- Built a World Atlas Website integrating external APIs to display real-time country and geography data.
- Designed a basic E-commerce Website with product listing, cart management, and responsive UI.
- Created a YouTube Frontend Clone focusing on UI/UX design and video layout using React.

□ **Projects**

1. Vaccination Reminder System

- Built a web-based platform to help parents track and manage child vaccination schedules.
- Implemented email/SMS notification system using Nodemailer/Twilio to send reminders before due dates.
- Integrated Google Maps API to suggest nearby hospitals and clinics.

2. CityCompass – AI-Powered City Navigation Platform

- Designed a MERN stack web application to assist students, travelers, and professionals in exploring new cities.
- Features include budget planning, route navigation, and personalized city guides powered by AI.
- Helps users plan their city experience without relying on external help.

3. World Atlas App

- Developed an interactive web app to provide details about countries, population, languages, and maps.
- Integrated REST APIs for real-time global data and presented results with a user-friendly UI.
- Optimized for quick search and responsive performance.

□ **Participation**

1. Industrial Visit – Rishabh Software, Vadodara
Shortlisted among 15 students for an industry-academia collaboration program on Cloud Computing Insights, gaining exposure to industry practices, infrastructure, and professional culture.
2. Coding Ninjas Events & Hackathons
Participated in Coding Ninjas coding contests and workshops, enhancing problem-solving skills and deepening knowledge in DSA, web development, and cloud technologies.

Hackathon Participarion

- Participated in various internal and external hackathons including the Smart India Hackathon.
- Participated in Web Development Hackathon – 48 hours online hackathon

□ Certificate

- NPTEL – DataBase Management System (Top 5 %)
- Architecture Solutions on AWS (Coursera)
- AWS cloud technical Essentials(Coursera)

□ Skills

- **Languages & Frameworks:** JavaScript, Python, C++, HTML, CSS, Node.js, Express.js, React.js
- **Cloud & Databases:** AWS (EC2, S3, Load Balancer), MongoDB, MySQL, Firebase
- **Tools & Platforms:** Git & GitHub, Docker, Postman, VS Code, Power BI
- **Soft Skills:** Problem Solving, Team Collaboration, Communication, Adaptability, Project Management
